

WORKSHEET ON THE CHAPTER METALS AND NON METALS

Q1. Name the following:

1. Liquid metal-----
2. Liquid non metal-----
3. Two soft metals-----
4. Non metal that conduct electricity-----
5. Non metal which is stored in water-----
6. The acid formed by dissolving carbon dioxide in water-----
7. Two solid non metals-----
8. Two gaseous non metals-----
9. Two metalloids-----
10. The liquid in which sodium and potassium are stored-----
11. Metal present in chlorophyll-----
12. Metal present in haemoglobin-----

Q2. Define

1. Malleability
2. Ductility
3. Displacement reactions
4. Corrosion

Q3. Give reasons:

1. Bells are made of metals.
2. Phosphorus is stored in water.
3. Electric wires are made up of metals.
4. Gold is for making ornaments.
5. Handles of utensils are made of plastic.

Q4. Name the product formed when the following burns in air.

1. Sulphur
2. Carbon
3. Phosphorus
4. Iron
5. Zinc

Q5. Complete the following:
